DETAILED ACTION

Drawings

1. This application has been filed with informal drawings which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.

Reissue Applications

2. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

It is noted that the applicant submits two "Reissue Application Declarations by the Inventor" in the reissue application 09/691,857. One of them has described at least one error during the prosecution of the application without the signature by the applicant/inventor, the other has the signature of the applicant/inventor but at least one error has not been described.

The applicant is required to submit Reissue Application Declaration by The Inventor comply 37 CFR 1.175(a)(1) and MPEP § 1414. See the above.

3. This reissue application was filed without the required offer to surrender the original patent or, if the original is lost or inaccessible, an affidavit or declaration to that effect. The original patent, or an affidavit or declaration as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

Art Unit: 2613

4. Claims 1-16 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.
